THE PEACE NEGOTIATIONS They May Be Declared Off Owing to China's Prograstination. Japan May Demand a Further Cession of Chinese Territory-Preparing for

> It is the belief of officials in a position to know the status of affairs between Japan and China that Japan will declare the peace negotiations off unless China shows more alacrity in their conduct. There is increasing irritation on the part of Japan as to the delays in presenting definite peace proposals. More than a month has passed since it was agreed that a tender of peace conditions would be considered by Japan, and as yet the conditions have not been offered and there is doubt as to China's plenipotentiaries having the right to make any final offers. Already the Japanese government is inclining to a unanimous demand of the native press to make far greater demands than were contemplated when the peace negotiations began. At that time the gen-eral understanding was that the basis of peace would be a cash indemnity and the independence of Corea, and the work of the plenipotentiaries was to be to settle the exact amount and terms of the cash indemnity. Now, however, there is an in-timation that Japan may no longer accept the two conditions first proposed, but may insist also on China's ceding exten-sive territory, probably the Island of For-mosa, or the valuable strategic points of Port Arthur or Wel-Hal-Wel, or a portion of Manchuria, already occupied by Japan Opinion differs in Japan as to which piece of territory should be demanded. This an nexation sentiment is universal, and it is believed Japan will soon make it known to China, probably through Minister Dun at Tokio, that the procrastination in pre-senting the terms of settlement is such that the negotiations will be abanded unless closed within a reasonable and defi-nite time. In the meantime there are evidences that Japan is preparing for an ag-gressive military movement, calculated to impress China and the plenipotentiaries with Japan's ability to increase the ad-

vantage she has already secured.

A gentleman who has been some years in diplomatic service in China and is a recognized authority on international custom points out that it is an invariable rule with China not to grant absolute power to her plenipotentiaries, but merely to confer advisory powers on them. There is author-

Methodist Missionary Societies.

At the meeting of the Foreign Missionary Society of the M. E. Church of the District at the Fifteenth Street Church vesterday morning, after devotional exercises, which were participated in by Mrs. Reiley, Mrs. L. H. Tilton and Mrs. C. L. Roach, an address of welcome to the society was made by the Rev. W. W. Van Arsdale. The financial report showed the collections for the quarter to be \$386. The Home Missionary Society met, with

Mrs. W. M. Springer in the chair, and Miss Scripture lesson was read by Mrs. H. R. Naylor, the prayer being by Mrs. J. C. Tasker. The reports of the secretary and of the treasurer, Mrs. C. W. Brown, were adopted. The collections for the quarter amounted to \$1,687.09.

Reports were made on various branches of the work.

District Epworth League. The board of control of the District Epworth League last evening decided that Douglas Memorial Chapter and Gorsuch

will be presented tomorrow evening. A committee on transportation and general arrangements for the Philadelphia convention in May and the Chattanooga convention in June was appointed, as fol-lows: George S. Gibson, J. A. Edgar and W. B. Mathews.

The following temperance committee was

appointed to work under the direction of the second vice president and to represent the Second vice president and to represent the District Epworth League in the Anti-Saloon League of this city: Rev. T. J. Clark, F. J. MacKenzie, O. C. Boteler, F. E. Waring and Miss Effie Perry. The new of-ficers will be installed at the mass meet-ing which will be held at Foundry Church

tomorrow evening.

The February mass meeting will be held in Waugh Church, under the direction of the department of mercy and help.

To Extend the Navy Yard.

Arrangements have been made for the extension of the Washington navy yard so as to include about eighty feet more land near the 6th street entrance. This land originally belonged to the government, but for many years past has been occupied by private parties. The extent of gun manu-facture, as well as their parts, has now become an industry of such proportions that cient room, and proposes adding to the yard, with a view to the erection in the future of more shops and factories. No proceedings have yet been taken looking to the extension of the present wall inclosng the property.

The District National Banks. According to reports received by the controller of the currency, the twelve national banks of the District are in a flourishing condition. At the close of business at the last examination, December 19, they had \$6,521,000 in loans and discounts, \$2,609,000 in lawful money reserve, of which \$1,050,736 is in gold, and the individual deposits aggregate \$9,528,000. The average reserve is 39.85 per cent.

Increase in the Public Debt. During the month of December there was net increase in the public debt, less cash in the treasury, of \$31,320,776.41. The interest-bearing debt increased \$40,025,100, the non-interest-bearing debt increased \$125,650.50, and the cash in the treasury ncreased \$8,829,974.09. New Librarian for the Treasury.

Another appointment in the Treasury Department is that of Mrs. Heiner, widow of a Union soldier, to be librarian of the de-partment, vice Mrs. H. I. Kimball, who has held the office for many years.

The New Postal Guide. The first copies of the Postal Guide for 1895 have reached the Post Office Department. The issue is earlier this year than usual. About 90,000 will be distributed to the postmasters of the nation.

Naval Orders. Chief Engineer B. B. H. Wharton will be detached from the New York navy yard January 14 and placed on the retired list. Ensign R. L. Russell, from the Chicago, on falling in with the San Francisco, and as-signed to that vessel.

Col. Chandler Retired. Col. John G. Chandler, assistant quartermaster general, has been placed on the re-

Fatal New York Fire. Three lives were sacrificed yesterday af-

ternoon in a fire at 25 Pitt street, New York. The victims were Lena Lehman, twenty-four years of age, and her two children, Sarah and Henry, aged, respectively, two years and three months. The fact that lives were lost in the fire was not discovered until some time after it was extin-guished, when firemen found the three bodies, burned to a crisp, lying beneath a heap of debris in the turn of a stairway on the third floor. The woman lived on the fourth floor and was trying to escape to the street, when she and her infants perished in the flames. Their lives would have been saved had the panic-stricken mother remained in Her apartments, as help promptly arrived.

FOR DYSPEPSIA Use Horsford's Acid l'hosphate. Dr. B. B. PETTITT, Sherman, Texas, says: "I have used it in dyspects with great specess, I think it is a fine remedy."

WILL FIGHT THE TROLLEY.

Brooklyn Aroused to Waging War on the Deadly Wires.

A New York special, dated yesterday,

Brooklyn is to wage war on the trolley, The Fulton street collision coming as a climax to a list of casualties that have taken place since the snowfall, has filled

the Brooklyn public with terror.

As a result the trolleys did a lighter business this morning than at any time during the cold srap. Whenever they could travelan Aggressive Military Movement. ers took the elevated trains.

Already complaints with regard to this collision and others have been lodged with the Law Enforcement Society. That or-ganization will take them up and direct its fight personally against the president and managers of the trolley companies. An attempt will be made to get them indicted. If the law is now inadequate for that, an amendment thereto, it is said, will be proposed at this session of the legislature.

Two more accidents occurred this morning. Car 112 of the 7th avenue line killed a \$200 horse belonging to the Ansonia Clock Company.

James Baker, twenty-six, a coachman, of 196 Madison street, was the victim of the second accident. He was crossing on a coach of Charles Van Cott, of 26 Mulberry street, this city, at Broadway and Kosciusko street. The trolley car struck the coach at the front wheel.

Baker was knocked off, badly bruised and cut, and was taken home severely hurt. The coach was shattered, but the horses escaped.

Popular Firemen.

Another pleasant neighborhood gathering was held at engine house No. 8 last night. An excellent program was offered, consisting of musical numbers by Misses Kimball and Dana, Messrs. Phillips and Church and some fine recitations by little Miss Janle Smith. After the program supper was served by the ladies of the neighborhood, and then the firemen went through the fire drill for the benefit of the spectators. These social gatherings at the engine house are always anticipated with pleasure by those who join in them, and their annual repetition bears witness to the cordial feeling existing between the firemen and their

Is not often in a lifetime that we meet men possessing to a fault those manly and generous traits of character which ever bring to us true and loyal friends—friends who willingly make

sacrifices for us.

EDWARD CALLAHAN was one of these. His friends were legion, and his own loyal, generous and sympathetic nature inspired them to the same high standard of manhood. They will follow him to the grave feeling that they shall not seen lock upon his like again. L. R. P.
